

AN ALLETE COMPANY

SUPERIOR WATER, LIGHT & POWER

New utility rates as of Jan. 1, 2023

Superior Water, Light and Power has proudly served the city of Superior and surrounding areas with safe and reliable electric, natural gas and water services since 1889.

In April 2022, SWL&P filed for approval to adjust electric, natural gas and water rates to support continued infrastructure improvements that enhance reliability and provide programs and services that customers expect from their local utility. The Public Service Commission of Wisconsin issued a final order on that application on Dec. 20, 2022.

Originally required to file a rate request in 2020, SWL&P was granted approval to delay the filing for two years because of the impact of the

pandemic on customers. During that time, SWL&P implemented an income-qualified program to help residential customers facing financial challenges get caught up on their utility bills.

The final order provides an overall retail rate increase of 2.7% or \$3.3 million.

Electric and gas rates have increased while water rates have decreased due to the Superior Refinery's expected return to normal operations.

- Electric rates will increase an average of 2.7%
- Natural gas rates will increase an average of 7.3%
- Water rates will decrease an average of 6.4%

The average residential customer of all three utilities using roughly 600 kilowatt hours of electricity, 75 therms of natural gas and 600 cubic feet of water will see a total change of about \$6.00 per month. The amount of any increase will depend on the respective utility, rate and usage. A copy of the new residential rates appears below. All rates can be viewed at swlp.com.

If you have any questions regarding the new rates, please contact us at 715-394-2200 or 1-800-227-7957.
