

AN ALLETE COMPANY

SUPERIOR WATER, LIGHT & POWER *Great service. Even better.*

## What's happening in 2018?

Watch for SWL&P in your area this spring and summer. We will be in neighborhoods throughout our service territory working on projects to ensure the safety and reliability of the services we provide.

### The projects include:

- Partnering with the city of Superior on the Belknap Reconstruction Project.
- Upgrading natural gas lines.
- Completing surveys to ensure the continued safety of our gas and water distribution systems.
- Installing advanced digital meters that will give customers more control over their energy and water use.

**Thanks for being a valued customer of SWL&P.**
