SUPERIOR WATER, LIGHT & POWER

# Natural gas upgrades

Superior Water, Light and Power and its partners soon will be in your area to upgrade natural gas service lines and install new meters as part of our commitment to providing quality service. We'll do our best to make the meter swap without inconveniencing you.

## What you need to know:

- The nature of the project makes precise timing difficult. We'll stop by your home or business a day or two ahead of the meter exchange to let you know you're next. If no one is present, we'll leave a written notification.
- We'll install the new meter at the same time we install your new natural gas service line. If no one is available, we'll leave the gas turned off and lock the meter until we're able to get inside and safely restore service. We'll leave instructions on how to contact us to get your service back on as quickly as possible.
- We may upgrade your water meter at the same time. 

**Questions? Contact SWL&P at 715-394-2200 or visit [swlp.com](http://swlp.com)**

AN ALLETE COMPANY

2915 Hill Avenue  
Superior, WI 54880

*We're exchanging your old natural gas meter for a new one*

**The new meter will:**

- Deliver reads more quickly and limit the need for our technicians to enter your yard or home.
- Help eliminate estimated meter reads when access has not been possible.
- Limit meter readers' exposure to potential hazards or obstacles such as locked gates, tripping or falling hazards, or pets.

**Thank you for being a valued customer.**
